

Compliance Statement of PSTI (Security Requirements for Relevant Connectable Products) for Bioaccess Sales Limited

Bioaccess Sales Limited is committed to ensuring the security and integrity of our connectable products in accordance with the Product Security and Telecommunications Infrastructure (PSTI) guidelines. We recognize the importance of safeguarding user data and maintaining the trust of our customers. As such, we hereby declare our compliance with the security requirements outlined by PSTI according to Schedule 1 for relevant connectable products.

Data Protection and Encryption: Our connectable products adhere to robust data protection measures, including encryption protocols, to safeguard sensitive information from unauthorized access or interception.

Secure Authentication: We implement secure authentication mechanisms to verify the identity of users and prevent unauthorized access to our connectable products and associated services.

Access Control: Our products incorporate access control mechanisms to limit and manage user privileges, ensuring that only authorized individuals can access sensitive functionalities and data.

Security Updates and Patch Management: We are committed to providing timely security updates and patches to address vulnerabilities and mitigate potential risks to our connectable products' security posture.

Secure Communication: Our connectable products utilize secure communication protocols to establish encrypted channels, thereby safeguarding data transmission between devices and external systems.

Secure Configuration: We follow best practices for secure configuration of our connectable products, minimizing the attack surface and reducing the likelihood of exploitation by malicious actors.

Incident Response and Management: We have established protocols and procedures for incident response and management to promptly address security incidents, mitigate their impact, and prevent recurrence.

Compliance Verification: We conduct regular assessments and audits to verify compliance with PSTI security requirements and identify areas for improvement in our connectable products' security posture.

Should we become aware of a security breach, we will look to respond to our customer within 5 working days of receiving the report. We are committed to recording the issue and advising accordingly. Should a vulnerability be identified, then we will look to communicate this to our customers immediately through our website.

Bioaccess Sales Limited is committed to upholding the highest standards of security and privacy in our connectable products, as mandated by PSTI guidelines. We continuously strive to enhance our security practices and remain vigilant against emerging threats to ensure the ongoing protection of our customers' data and privacy.
