

PSU1SM

# POWER SUPPLY

DC12V 1A Regulated Switch Mode Power Supply Unit

## Key Features

- Short circuit Protection
- Over current protection
- RoHs Compliance
- 2.1mm DC Power Jack connector
- Integrated mounting lugs
- Compact design
- No 3-pin plug supplied

The Genie **PSU1SM** is an 'in-line' switch mode power supply unit. Whilst available for use in many varied applications, it is proven to be most popular for low voltage CCTV cameras.

The **PSU1SM** is a light weight yet sturdy unit and provides a 'regulated' DC12V 1Amp output, perfect for a CCTV camera.

## Specification

<b>Output Current</b>	1 Amp
<b>Output Voltage</b>	DC12V
<b>Load Regulation</b>	±5%
<b>Rated Input Voltage Range</b>	90VAC – 240VAC
<b>Frequency Range</b>	47Hz – 63Hz
<b>Working Temperature</b>	0°C~40°C
<b>Working Humidity</b>	10%RH – 90%RH
<b>EMC Standard</b>	EN62368
<b>Dimensions</b>	117 × 150 × 175 cm
